Author Index*

Volume 16 (1990)

Adelman, L., *see* West, S.A., (2) 107–116

Avenhaus, R., Decision procedures for safeguards systems, (3) 229–248

Barlow, J., *see* Rada, R., (2) 117–136

Barrett, C.L. and M.L. Donnell, Real time expert advisory systems: Considerations and imperatives, (1) 15–26

Benjamin, C.M. and C.A. Powell, The use of metagame analysis as a diagnostic technique in decision situations: The 1988 U.S.–U.S.S.R. grain negotiations, (4) 361–372

Brams, S.J., Practical bargaining procedures and their game-theoretic foundations, (3) 263–276

Burns, J.R., A specification language for generating intelligent discrete next-event simulations, (1) 3–14

Cheon, S.W. and N.M. Fraser, A multi-level game approach to labor–management negotiations, (3) 277–290

Cohen, P.R., *see* Howe, A.E., (2) 161–182

Cooper, A.F., *see* Hipel, K.W., (4) 347–360

De, M., *see* D.M. Kilgour, (4) 321–332

Donnell, M.L., *see* Barrett, C.L., (1) 15–26

Eisner, H., Information and decision technologies: Nine needs and niches for the nineties, (2) 101–106

Fang, L., *see* Kilgour, D.M., (4) 291–300

Fraser, N.M., *see* Cheon, S.W., (3) 277–290

Fraser, N.M., M. Wang and K.W. Hipel, Hypergame theory in two-person conflicts with application to the Cuban missile crisis, (4) 301–320

Fraser, N.M., *see* Hipel, K.W., (4) 347–360

Hipel, K.W., Decision technologies for conflict analysis, (3) 185–214

Hipel, K.W., *see* Kilgour, D.M., (4) 291–300

Hipel, K.W., *see* Fraser, N.M., (4) 301–320

Hipel, K.W., *see* Kilgour, D.M., (4) 321–332

Hipel, K.W., N.M. Fraser and A.F. Cooper, Conflict analysis of the trade in services dispute, (4) 347–360

Howard, N., 'Soft' game theory, (3) 215–228

Howe, A.E. and P.R. Cohen, Steps toward automating decision-making, (2) 161–182

Kilgour, D.M., L. Fang and K.W. Hipel, General preference structures in the graph model for conflicts, (4) 291–300

Kilgour, D.M., M. De and K.W. Hipel, Asymmetric roles for decision-makers in conflicts with business applications, (4) 321–332

Klein, G.A., Knowledge engineering: Beyond expert systems, (1) 27–42

Levis, A.H. and S.L. Skulsky, Migration of control in decision making organizations, (2) 147–160

McClure, J.A., *see* Tien, J.M., (2) 137–146

Mhashi, M., *see* Rada, R., (2) 117–136

Post, S.D. and A.P. Sage, Default reasoning using least exception logic, (1) 43–68

Powell, C.A., *see* Benjamin, C.M., (4) 361–372

Rada, R., M. Mhashi and J. Barlow, Hierarchical semantic nets support retrieving and generating hypertext, (2) 117–136

Radford, K.J., The strategic/tactical model for resolution of complex decision situations (SANTA), (4) 333–346

Sage, A.P., *see* Post, S.D., (1) 43–68

Schum, D.A., Inference networks and their many subtle properties, (1) 69–98

Skulsky, S.L., *see* Levis, A.H., (2) 147–160

Tien, J.M. and J.A. McClure, Towards an operations-oriented approach to information systems design in public organizations, (2) 137–146

Wang, M., *see* Fraser, N.M., (4) 301–320

West, S.A. and L. Adelman, Incorporating cognitive psychology into interface design: A review of books, (2) 107–116

Zagare, F.C., The dynamics of escalation, (3) 249–262
